

## THE ART OF THE TOWEL ANIMAL: ELEPHANT

### WHAT YOU'LL NEED:

- Two (2) wash cloths
- One (1) hand towel
- One (1) rubber band
- Various decorations

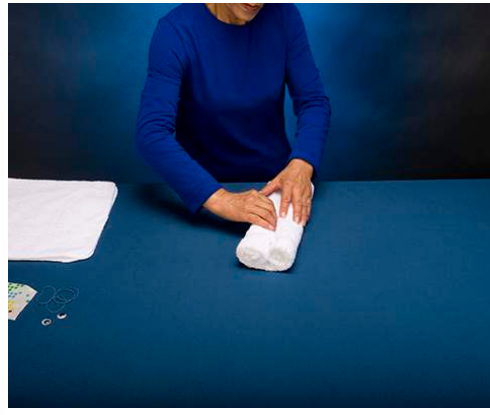

### STEP 1

Fold both length-wise edges of towel about one inch inward.

### STEP 2

Roll up each end of the towel toward the center of the hand towel.

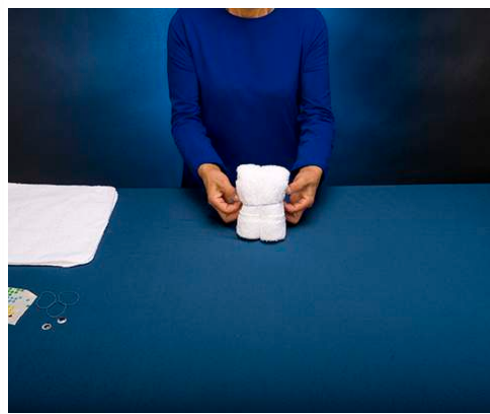

**STEP 3**

Have both ends meet in the center of the towel.

**STEP 4**

Fold the rolled up hand towel in half with the center cut of the towel facing outward.

**STEP 5**

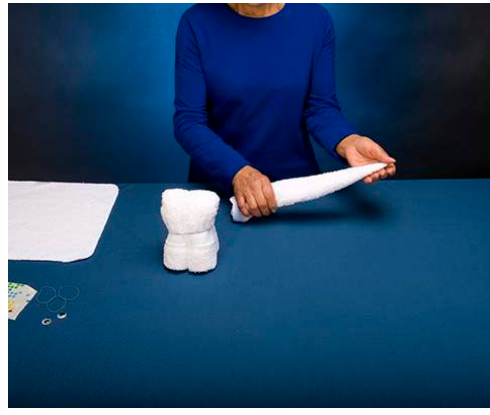

Secure with rubber band to make the “legs” of the elephant.

**STEP 6**

Take your first wash cloth and secure the top.

Next begin rolling each side’s top corner diagonally toward the center of the wash cloth.

**STEP 7**

This should turn the wash cloth into a long, narrow “V” shape, which will be the “trunk” of the elephant.

**STEP 8**

Slip the narrow end of the V-shaped wash cloth through the rubber band in the front of legs.

**STEP 9**

Place the wider end of the “V” over the back of the legs and shape the narrow end of the “V” into a trunk. This forms the head and trunk of the elephant on top of its legs.

**STEP 10**

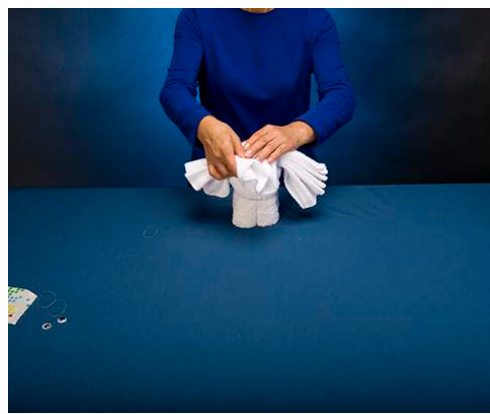

With the second wash cloth, fold accordion-style with about ½ - inch folds.

**STEP 11**

Fold the accordion in half to have the two ends meet to form a crease in the middle of the wash cloth.

**STEP 12**

Take the accordion-fold towel and place on top of the legs and underneath the wider end of the “V” with the crease of the accordion-fold towel guiding your center point. This forms the ears of the elephant.

**STEP 13**

Next secure the wide end up the V-shaped trunk by slipping it under the rubber bands that are also securing the elephant legs.

**STEP 14**

Extend the accordion-fold towels to form big elephant ears and decorate as you see fit.

Your towelgami elephant is now ready to brighten up your room (or next bath).
